

E·f(ec)'s PROJECT **FUNWAY** 2023

JUDGING CRITERIA

Here's a helpful guide to Project Funway's judging criteria in order of importance.

1 UNCONVENTIONAL

Most important is the unique and creative use and transformation of unconventional materials. The less the material looks like its previous form, the better. The less fabric-like the materials, the better.

2 CREATIVITY

Creative use of unexpected materials is valued.

3 CRAFTSMANSHIP

The more well-crafted the garment, the better. Unique crafting, attachment, and a garment that holds together throughout the show are valued.

4 PRESENTATION

Extra points for a garment, props, accessories, makeup and music that work well together, and a well-executed runway performance with confidence and character.
